

ON THE SYSTEM

The Appraise System from Amneon is a cost-efficient, workspace-maximizing solution for companies of four to four thousand. As an OEM supplier to some of the world's biggest office furniture makers, our engineers have seen what works and what doesn't. This works. Beautifully.

All Amneon Appraise panels include patented factory installed raceways in standard powder coat finishes, and pre-punched covers to accept data and phone jacks. All panels include the steel hanger frame, which allows for component adjustment in 1" increments. Aluminum top cap and steel panel shells are powder coated to provide a durable and aesthetically pleasing finish. Glides are included.

If you need office furniture, compare everything and compare Amneon. We have years of experience making well made furniture for other companies. We have a small portfolio of products, which helps us keep our costs down and the planning simple. We concentrate on making every buying experience hassle-free.
